

The 4th Honcho International Festival was held at Honcho Plaza on February 16th. Friendship was the theme of this year's festival, and many people took part in it.

In addition to stalls serving international food, a central stage was created for various performances. There was music, dance, and a play. This included a traditional Japanese drum performance and an original play by students of Honcho Junior High School.

The play received a special award from the organizers.
